

2023 Community Benefit Plan and Report Our Promise to the Community

In fiscal year 2022, Scripps Health provided

\$692 million

in community benefit services

As part of Scripps Family Medicine Residency Program, residents, faculty, and staff work as a team to focus on continuous quality improvement in patient care, including training at federally qualified health centers. Through community partnerships, residents offer perinatal care for underserved Latina women to improve birth outcomes and support parenting groups. At Scripps Well-Being Center, they help keep patients on a healthy pathway and increase patient continuity by providing post discharge services, as well as support for patients and their families at risk for readmission. In addition, residents share educational information with members of a bilingual breast cancer group, and offer street outreach services to those unhoused and in need.

Serving Our Community

In 2022, Scripps Health continued its commitment to enhancing the health of our community and serving those in need. We are proud of our multifaceted community efforts, which provide vitally needed health care services and improve the quality of life for people throughout the region. This dedication has been a driving force behind our ability to provide high quality health care to our region for the past 100 years. It has been, and will always be, at the heart of everything we do.

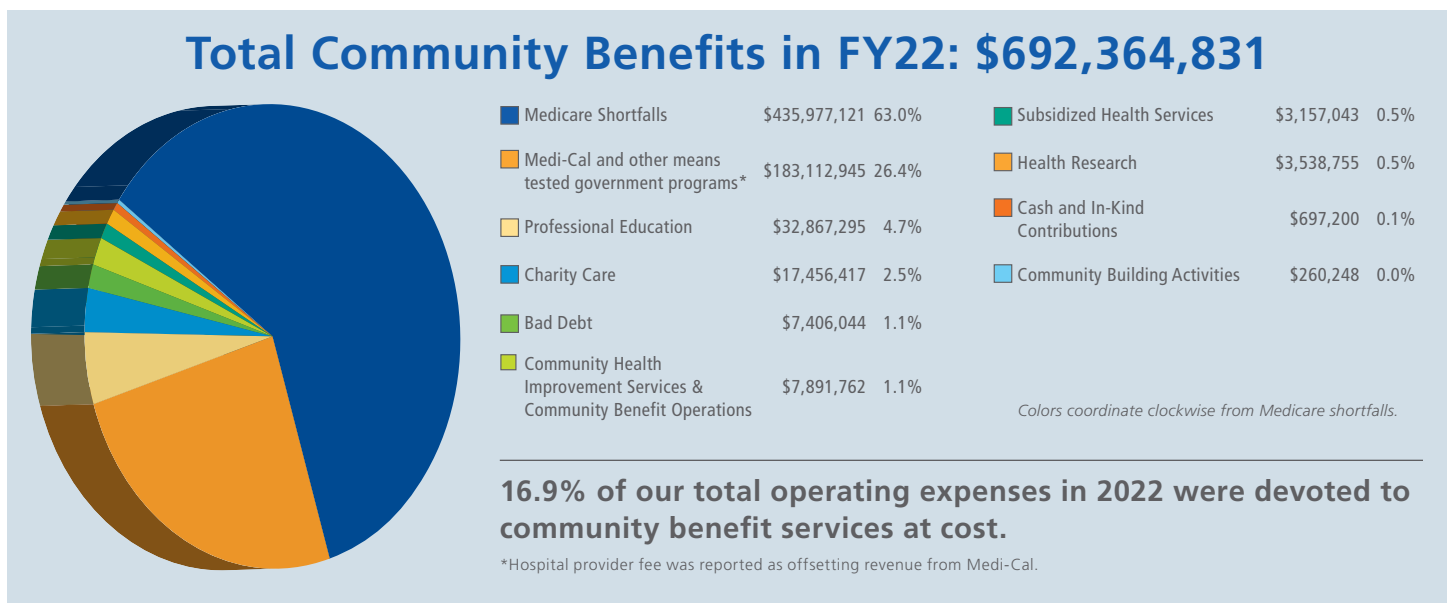

Investing in Our Community

In fiscal year 2022 Scripps Health devoted more than \$692 million to community benefit programs, including over \$17 million in charitable care. We offer many free and low-cost services, as well as, support groups, screenings for key health indicators, youth programs, professional education, special education for pregnant women, patient advocacy services, and more.

Keeping patients at the center of everything we do, Scripps collaborates with other health systems, community groups, government agencies, businesses, and community clinics to identify and serve the greatest needs in the health of our community.
